ABOUT ME

I am a Flutter Developer. As a Flutter developer, I specialize in creating high-performance, visually stunning mobile applications for both Android and iOS platforms. I want to enhance my skills with new trends in the IT sector.

I am well-versed in the Flutter framework and have expertise in building custom widgets, implementing animations, and integrating third-party libraries. Additionally, I am experienced in developing RESTful APIs and creating Windows Form Applications, showcasing my versatility in both mobile and desktop application development.

WORK EXPERIENCE

Flutter Developer May 2022 - Continue

Green Professional Technologies

I worked as a Flutter developer intern. Collaborated with the team I learn App development, Window Form Application, and programming skills. Acquired proficiency in programming languages such as DART, C#, Window Form Applications, and Flutter.

Web Developer Mar 2021 - Dec 2021

Progressive Marketing Network

I worked as a web developer intern. Collaborated with the team I learn web development and programming skills. I learn HTML, CSS, Bootstrap, SQL, and WordPress.
